

Nature's Symphonies

By Karlie Watson

The Nature Symphonies,
They're all around.
From the tweety tweet tweet of the chickadees,
and the wolves at night sing their beautiful sound.

The Nature Symphonies,
They are here.
The clicky click click of the cricket,
and the grunt of the deer.

The Nature Symphonies,
Here and there.
The hoo hoo hoo of an owl,
and the roaring of the bear.

The Nature Symphonies,
Try to attend.
The waving of the grass,
and the whooshing of the wind.

The Nature Symphonies,
Listen to nature
And you will hear
Nature's Symphonies.
