

Central Missouri Down syndrome Family Network

Sometimes you just need to talk with someone who's been there!

Central MO Down syndrome Family Network includes families from all over the area, from Auxvasse to Eldon, Columbia, Jefferson City and many other cities and counties. Some families have babies or small children, others teens or adults who are “enlightened by an extra 21st chromosome.”

We laugh together, share stories, information and strategies. We are connected with resources at both Down Syndrome Guild of Greater Kansas City and Down Syndrome Association of Greater St Louis.

Please check our Facebook page for resources and event information!
