

- 1. Cut 2 pieces of yarn, about 8 inches long. Set aside.**
- 2. Wrap the yarn around your four fingers several times. The more time you wrap the thicker your tassel. If you want it longer, spread your fingers.**
- 3. Cut the thread still attached to the skein of yarn even with your pinkie finger.**
- 4. Slip one of the cut pieces of yarn through the loop your fingers have made and tie a knot (this is the top.)**
- 5. Slip the loop of yarn off your fingers.**
- 6. Tie the second cut piece of yarn just down from your top. Wrap it around a couple of times and then make a knot.**
- 7. Cut through the loops at the bottom of your tassel and trim!**
